SOFTWARE UTILIZATION

Arc-GIS	GEOPAK 3D
AutoCAD	MicroStation
AutoCAD Civil 3D	OpenRoads Designer
Civil Storm	SUDA

CLIENTS & EXPERTISE

Illinois Department
of Transportation

Transportation & Highways

d'Escoto design engineers are experienced in Phase I and II ADA ramp design, geometric plans, maintenance of traffic, drainage design, 3D modeling, erosion and sediment control, landscaping, and barrier warrant analysis. We utilize industry-standard programs and procedures to build contract plans, specifications and estimates for complex, multimillion-dollar projects. This process begins at the first concept submittal, continues through advertisement, and concludes with construction support. These building blocks have allowed us to assemble a team of professionals with industry leading experience and knowledge who have fostered strong relationships with key transportation agencies.

AFFILIATIONS

- American Council of Engineering Companies (ACEC)
- American Society of Civil Engineers (ASCE)
- Illinois Assoc. of Highway Engineers (IAHE)
- Illinois Road & Transportation Builders Assoc. (IRTBA)
